

Vermeer Chipper Knives

with new permanent price reductions!

GENUINE PARTS

Your local Vermeer Australia Parts Counter delivers the top-quality genuine parts that fit all Vermeer Brush Chipper models.

HIGH QUALITY

Our chipper knives are manufactured using high-grade steel and a dual-tempered heat-treatment process to keep your Vermeer equipment performing.

EXTENDED WEAR LIFE

Vermeer chipper knives feature 2 usable cutting edges allowing the knife to be flipped and reused doubling the service life of each blade. Vermeer blades can handle up to 4 to 5 sharpens before needing to be replaced.

EASIER ON YOUR MACHINE

A sharp knife allows for a clean cut and produces a smaller chip that can be thrown further. It also reduces stress on machine components such as the engine and drive belts.

SAME PRODUCT, REDUCED COST

You asked, and we've listened! We stock the same great quality product that you're used to, the only thing that has changed is the price!

MOBILE SCHEDULED MAINTENANCE

We offer mobile servicing within the greater metropolitan areas of Brisbane, Sydney, and Melbourne so your Vermeer equipment can be serviced on your premises or job site. *Booking essential.
